Tuesday, January 31, 2012 - 15:06

Modern Painters senior editor Scott Indrisek recommends this dual erotic vision from Bartos, a photographer, and Weber, a realist painter. Expect the former's moody, cinematic images to illicit the most titillation (and possible discomfort); Bartos has been soliciting local men to masturbate for her camera. The resulting photos are as unnerving as they are salacious. Bring an open-minded date to the opening.
